Image Shot List & Video Spec: Quanten-Massage München Relaunch

Draft 1 · 25 Oct 2026 · Priority: Partnermassage-Kurs (280 € per couple) · Sales window: end of November to mid-January

1. How this works (so you never block the build)

- **Every picture has a slot ID** (for example `K1`). I build the site now with **stand-ins** (the "Stand-in now" column).
- When your final picture is ready, save it as `photos-new/K1.jpg` (the slot ID as filename, any size above the minimum). I optimise it (WebP/AVIF, phone sizes) and swap it in. Nothing needs rebuilding.
- **P1 = needed before launch (mid November). P2 = nice to have, can follow.**

2. Rules for real vs. AI vs. stock

Use	Rule
Susan (portraits, her at work)	**Real photos only.**
Course participants, testimonials	**Real people with written consent** (first name or initials). Never AI faces presented as real customers.
Atmosphere (hands, rooms, light, gift, linen)	AI or stock is fine.
Hands	AI often draws wrong fingers. Generate 8+ variants and check fingers closely, or use real photos.
Realistic AI images of people	EU rules on labelling realistic AI images are starting to apply. Ask the lawyer who checks the Impressum whether a small note is needed.
Licence proof	For every image, save a screenshot of the licence or purchase page in a `licences` folder.

Old Fotolia and iStock purchases: Fotolia was merged into **Adobe Stock**, so the old Fotolia login may still show your purchase history there (I believe so, but please check). The iStock account keeps its own purchase list. Downloading those invoices once is the easiest proof.

3. One style for all pictures

Look: warm, calm, intimate, editorial. Soft window light, sand and linen tones, a small turquoise accent, shallow depth of field. Hands, backs and details over smiling faces looking at the camera. Same colour grade everywhere.

STYLE text (add it to the end of every AI prompt):

> editorial lifestyle photograph, soft natural window light, warm sand and linen tones with subtle muted turquoise accents, calm and intimate mood, shallow depth of field, 85mm lens, natural skin texture, gentle film-like colour grade, no text, no logo, no watermark

Negative prompt (if the tool has one): *extra fingers, deformed hands, plastic skin, oversaturated, neon, text, watermark, stock-photo smile, clutter*

Logo: your current logo files are small (`logo2.jpg` is 367×327, `cropped-logo2.jpg` is 512×512). Please send the **original (vector, SVG, AI, PDF) or a PNG at 1500 px or more**. Otherwise I redraw the lotus mark as a clean vector.

5. Treatment pages (12 thumbnails + 1 overview)

Format for all: **1200×1500 (4:5)** plus the same picture cropped 16:9 for the overview. Prompt = motif + STYLE. **Stand-in now: neutral tinted blocks**, except where noted.

ID	Treatment	Motif

T1	Quanten Massage	Hands hovering gently over a back, a soft glow of light between them
T2	Hot Stone	Smooth dark stones on a folded towel, steam, warm light
T3	Feldenkrais	A person lying relaxed on a mat, a teacher’s hand gently supporting the shoulder
T4	Intuitive Massage	Slow flowing hands on a back, soft shadows
T5	Fußreflexzonen	Hands holding a foot, close-up, towel and warm light
T6	Schwedisch / klassisch	Firm forearm stroke along the shoulders, clean linen
T7	Schwangerschaft	Side-lying pregnant woman supported by pillows, hand on the lower back (stand-in `334.jpg`)
T8	Antistress	Water drops or ripples with warm light (stand-in `antistress.jpg`)
T9	Aroma-Öl	Oil being poured into a hand, a sprig of lavender, warm light
T10	Indische Kopfmassage	Hands on the scalp, hair softly lit from behind
T11	Rückenmassage	A long stroke along the spine, glowing skin tones
T12	Esalen / Lomi Lomi	Forearms gliding in one long flowing movement, soft focus
T0	Overview page	Wide shot of the treatment room with a mat and a plant

6. Hero video specification (your clip)

Role: a short, slow, silent loop behind the hero text on the home page (and optionally the Kurs page). It sets the mood, so it must be calm.

Item	Specification
Length	**10 seconds** as a seamless loop (shoot 12–14 s to have room for a crossfade)
Aspect ratio	**16:9 landscape** master. Keep subject and light balanced so a **9:16 phone crop** also works (keep important action in the central 50%).
Shoot at	4K if possible, or 1080p. **Slow motion:** film at **50 or 60 fps** (or 120 fps on a phone) and play at **25 fps** (50% speed or slower).
Delivery sizes	Desktop: **1920×1080**. Phone: **720×1280** (vertical crop).
Frame rate	25 fps
Formats	**MP4 (H.264)** and **WebM (VP9)**. I can make the WebM, the phone version and the poster from your MP4 master.
File size	Desktop MP4 **under 3.5 MB**, WebM **under 2.5 MB**, phone **under 1.5 MB**
Audio	**None** (remove the sound track)
Loop	Locked camera (tripod) or a very slow 3–5 cm slide. In DaVinci Resolve, overlay the last 1 s on the first 1 s with a cross dissolve to hide the loop point.
Playback	Muted autoplay, loop, inline on phones. Start with a **poster image** (the first frame, JPG, under 150 KB).
Fallbacks	**Poster image only** when the visitor has “reduce motion” or data-saver on, and on slow connections.
Light and colour	Warm window light, slightly lifted shadows, low contrast so white text stays readable. No fast movement, no flicker.
Composition	Keep the **left 40% of the frame calm** (headline goes there)

Recommended motif (shoot this first): two pairs of hands, one partner slowly gliding along the other's shoulder, linen, morning light from the left. Optional alternates, in order of preference:

1. Hands pressing gently into a partner's hand or forearm, close-up
2. Sunlight slowly moving across a white sheer curtain in the empty treatment room
3. Two hands resting together on a mat after the massage
4. Warm stones in a bowl with a little steam

DaVinci Resolve export: H.264, 1920×1080, 25 fps, VBR about 3 Mbps, audio off.

7. Susan's portrait session (a phone is enough)

Shot	Notes
S1 portrait	Calm smile, half-body, next to a window with daylight. Vertical, 4:5. A plain wall or the treatment room behind her.
S2 hands	Close-up of her hands on a back, with the person's face outside the frame.
Extras	Her in the room, standing relaxed with arms down. One laughing candid photo.
Settings	iPhone Portrait mode, back camera, the highest quality setting. Daylight, **no flash**. Wear natural colours (linen, white, sand, muted turquoise). Leave the original (not WhatsApp-compressed). Send by AirDrop, a link or email.

WhatsApp text for Susan (German):

> Hallo Susan, für die neue Website brauchen wir ein paar schöne Fotos von dir. Bitte mit dem Handy (Porträt-Modus, Rückkamera), am Fenster bei Tageslicht, ohne Blitz, in natürlichen Farben (Leinen, Weiß, Sand). 1) Halbporträt, ruhig lächelnd, hochkant. 2) Deine Hände bei einer Massage (Gesicht der Person nicht im Bild). 3) Du im Behandlungsraum, entspannt stehend. 4) Ein lachendes Foto zwischendurch. Bitte als Originaldatei schicken, nicht über WhatsApp-Komprimierung (z. B. AirDrop oder per Link). Danke!

8. Videos: reuse, plus new ideas

Reuse (already on the site, Full HD):

File	Where
`eltern-kind-massage.mp4` (13 s)	Eltern-Kind page, treatment overview
`fussreflexmassage.mp4` (30 s)	Fußreflex page
`rueckenmassage-muenchen.mp4` (20 s)	Rückenmassage page

Two **YouTube videos** are embedded on the old Paarkurs pages. I'll show them with the **two-click solution** (nothing loads from YouTube until the visitor clicks).

New videos with hooks (for reels and the site):

#	Idea	Length	Hook (first 2 seconds)	Placement
V1	**Das Geschenk zu zweit:** a gift card is unwrapped, then hands on a back	15–20 s	*„Dieses Jahr schenken wir uns Zeit."*	Gift section, Instagram reel
V2	**Ein Kurstag in 20 Sekunden:** arrival, demonstration, couples practising, the closing tea	20 s	*„In 4 Stunden lernt ihr, euch wirklich zu berühren."*	Kurs page "Ablauf"

V3	**3 Fehler bei der Partnermassage:** Susan speaking to the camera	25 s	*„Warum die meisten Partnermassagen nach 5 Minuten aufhören.“*	FAQ, reel
V4	**Meet Susan:** a short vertical introduction	30–45 s	*„Ich zeige euch, wie Berührung wieder leicht wird.“*	Meet Susan section
V5	**Paare erzählen:** one couple’s quote over their hands (with consent)	20–30 s	A short quote from the couple	Testimonials

Wording rule: no promises of healing. Describe the experience (“lernen”, “erleben”), not medical results.

9. Delivery checklist

- Folder: `photos-new/`, filename = slot ID (for example `H1.jpg`, `K3a.jpg`)
- Minimum sizes as in the tables. Larger is welcome, I’ll compress.
- Save licence proofs in `licences/`
- **Order of work:** H1 and K1 first, then K2, K3, S1 and S2, then the rest. Treatment pictures (T1–T12) can follow after launch.
